

## Central Hotel Bonaire goes live with Hotelogix as its property management system

Central Hotel Bonaire is situated in downtown Kralendijk in the Dutch Caribbean, opened in 2011. It is a modern boutique hotel with 20 stylish rooms right in the middle of the town, surrounded by all the tourist attractions, the beach, entertainment and bars that make your nightlife tasteful. Central Hotel Bonaire provides the facilities as A/C, satellite TV, free internet access and most of rooms feature a Queen bed.

### Vision

**To find a cost effective property management system to manage small and mid-size hotels seamlessly.**

Boudewijn Scholts, a consultant for the hospitality industry in the Caribbean, was scouring for the solution that would fulfill all the demands of small and midsize hotels. However, he found the existing softwares expensive, requiring significant investments in IT infrastructure and training. This was clearly not suitable for the profile of such businesses. Against from the leading hospitality softwares that he experienced, he found Hotelogix as the suitable solution that is easy to use, easy to implement and extremely cost effective.

### Focus

**Simple, User Friendly, Cost-Effective, Quality Support, Easy To Implement and Anytime Anywhere Access**

Boudewijn Scholts was not only searching for powerful solution that would be both cost-effective and high quality solution. It was important for the solution to be user friendly and easy to implement. "It is true, that most of the top hospitality solutions offers the help together with product but with Hotelogix we have the manuals, help videos and live help accessible for 24 hours. Moreover the system is upgrading continually which is the big advantage."

*"With Hotelogix we saved on Manpower, IT infrastructure, Support and Maintenance! I hope this will be the start of many more installation. Hotelogix is very attractive solution for small and mid-size hotels, indeed!"* Boudewijn Scholts.

### Goal

Central Hotel Bonaire managed to implement Hotelogix within a week time. Now, they leverage from MIS reports, sophisticated property management system and from the beginning they have recorded savings on manpower, IT infrastructure, support and maintenance.

*"Existing Property Management Systems are not suitable for the real small hotels and mostly too expensive for the midsize hotels! We installed the system for a brand new hotel and there was no transition. The system does everything that is needed",* said Boudewijn.
