Web Booking Engine

Take your Business to the next level!!!

Hotelogix presents a [Web Booking System](#) that will not just stop at selling rooms through your website. This system enables a full representation & extension of your Hotel business online, that translates to a definite increase in your direct booking revenues.

“Hotelogix Web Booking Engine”, is by far the most extensive, flexible and more powerful system than anything that you may have used till date.

The Booking Engine Includes

1. Booking on multiple rates and packages, which means you can easily offer rooms inclusive of meals, transfers and any other add-on services.
2. Other than your accommodations/rooms, you can sell other add-on services separately
3. Easily specify booking and cancellation policies and feel free to take booking deposits, or just credit card guarantees - as needed. Get the credit card details to charge later.
4. Show rates in multiple currencies.
5. Blacklist guests or unwanted bookers, and get alerts for them.
6. Clearly display the terms of booking (Eg, We never charge credit cards at the time of booking.) and send auto emails to the booker Guests with all the valid info for managing their bookings etc through My Accounts.
7. Auto generation of My Account console for your guests.
8. Web booking calendar with 2 months display of availability status
9. Flexibility to specify Adult, child, infant or exclude as needed.
10. Flexibility to add custom fields in the booking engine.
11. Let your Travel Agents login to access their special rates – all transactions are automatic and yet fully controlled by you.
12. Let your Corporate Customer’s login to access their special rates – all transactions are automatic and yet fully controlled by you.
13. Promote your other hotel properties, when booking at any one of your property. Also option to let them book accommodation in your other hotels while they are at it.

We are now connected to the [GDS/IDS](#), which includes seamless booking capabilities on 1000’s of popular travel portals & other mainstream channels (450,000 Travel Agents) to increase your booking revenues.

Hotelogix presents a Web Booking System that will not just stop at selling rooms through your website. This system enables a full representation & extension of your Hotel business online, that translates to a definite increase in your direct booking revenues.
