

Hotelogix Cloud-based Property Management System

Trusted by hotel owners in 100+ countries

A 360 degree PMS that improves productivity and boosts profitability

Anytime, anywhere access: Our system is hosted on cloud servers, letting you manage your hotel operations from anywhere with internet connectivity

Enhanced task management: Automate tasks across departments- Front Desk, Housekeeping or Travel Desk -let them work in sync. Also, assign unlimited users with restricted access

Minimal capital expenses: With a simple, user-friendly interface and included training videos, you save on capital expenses like infrastructure and manpower

Drive more business: Our PMS seamlessly integrates with online distribution sources - OTAs, GDS and booking engines - adding to more business opportunity

Online reputation management: Automate review collection to increase reviews by almost 300%, leading to more number of direct bookings

24X7 support: A ready online support that works round the clock to help you in real time issues, saving you valuable time in the process

What Our Customers Are Saying

“ Hotelogix PMS has freed up 60% of our staff time

The PMS is very efficient and not at all time consuming, and I have already started promoting the system to my friends and hoteliers. In case there are any hurdles, the support team is available 24/7 ”

- Mr. Sarath Wickrama - Owner, The Carlton Hotel, UK

Available in Multiple Languages

▶ English ▶ Spanish ▶ French ▶ Portuguese ▶ German ▶ Russian ▶ Arabic ▶ Thai

Hotelogix simplifies your life

Intuitive front desk interface:

Designed after extensive research and development, the front desk console lets you oversee your hotel's routine operations including check-ins and check-outs

Unlimited POS terminals:

Generate additional revenue through restaurants, bars, gift shops and more – manage an unlimited number of points-of-sale on the dedicated POS module

Responsive multi-device interface:

Go mobile as our system is tablet-friendly and offers a web and social media booking engine optimized for all mobile devices

1 Minute to start experiencing:

Our automated setup wizard is an industry- first, allowing you to get your property on the cloud almost instantly
