# Hotelogix PMS Mobile App

*It's essentially a, 'PMS in your pocket!'*

**HOTELOGIX**
smart hoteliering

## Manage all your hotel's operations on-the-go

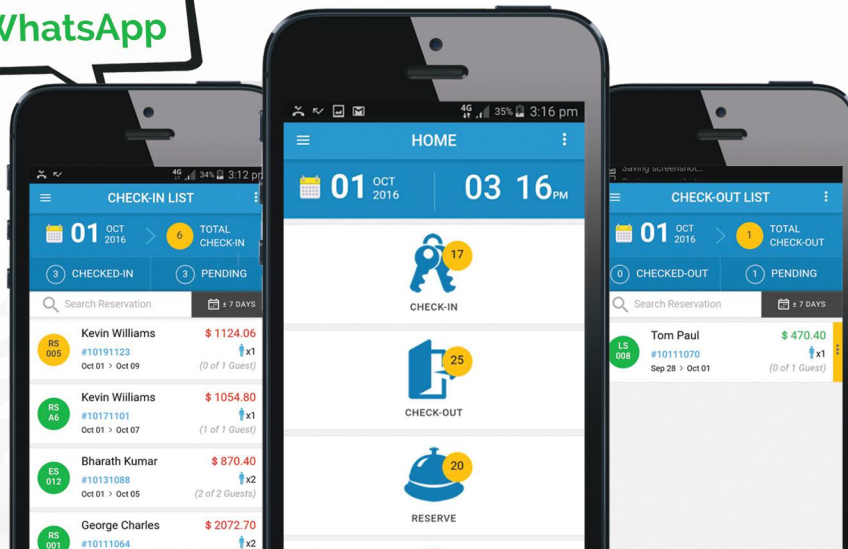

# Enjoy benefits like

- **Simplify front office tasks:** Easy check-in, check-out and reservations. That means more time for staff to improve guest experience

- **Cut Infrastructure costs:** Save on costly infrastructure expenses as the app can run on all android and iOS devices

- **Reduced cost of Employment:** The simple, uncluttered interface means operating the app is as easy as using WhatsApp. Leading to limited investment in resources

- **Speedy check ins:** Scan guest IDs such as passports from over 80 countries which means faster check-ins and fewer data entry error

*"The support team is always available I feel Hotelogix is a very strong and comprehensive PMS, I have already started promoting the system to my friends and hoteliers."*

*- Mr. Sarath Wickrama, Owner, The Carlton Hotel, UK*

# Optimize your hotel's routine operations

**As easy as WhatsApp**

The PMS mobile app improves overall efficiency at your property and even lowers manpower costs, while the gentle learning curve makes it simple to use, even for non tech-savvy users. The guest experience also benefits! With your staff able to check guests in and out of the property faster, visitors can also expect better service during the course of their stay.

# Features you will love

## Comprehensive capabilities
- Scan guest IDs from over 80 countries
- Conduct daily night audits
- Save and Recall guest preferences for repeat bookings

> *We were very happy that the Hotelogix system fit our hotel's exact specifications. Our staff is now better able to serve our guests, and this has been reflected in the higher number of positive reviews we have received on TripAdvisor. We would definitely recommend Hotelogix to any property looking for an easy-to-use management solution.*
